WHO WE ARE

About Neminath Wood Industry

“Since 2018, Neminath Wood Industry has been crafting high-quality doors, furniture, and interiors to elevate every space.”

Neminath Wood Industry transforms spaces with beautifully crafted doors, furniture, and interior solutions. Our expert team designs and manufactures products using the finest wood, veneers, laminates, and modern materials to create interiors that combine elegance, durability, and style.

From classic doors to furniture, kids' furniture, and corporate furniture, every piece is thoughtfully designed to enhance its environment while reflecting modern aesthetics. At Neminath we bring creativity, quality, and innovation together to elevate every space we touch — and today, that same craftsmanship drives our growing baby & kids' furniture line, engineered for buyers beyond our borders.

OUR PROMISE

Every product that leaves our workshop is built to a single standard — precise joinery, durable materials, and finishes safe enough for kids, strong enough for a decade of daily use.

BEYOND BORDERS

What began as a Chennai door & furniture workshop in 2018 has grown into a manufacturer engineering export-ready kids' furniture — built locally, designed for the world.

WHAT WE CRAFT

Our Product Range

ENTRYWAY

Doors & Openings

Beige with natural spindles

New design
Walnut panels, grey rails

New design
Rattan arch headboard

New design
Walnut & cream

New design
Sage rails, oak & rattan

BEHIND THE CRAFT

Inside Our Workshop

SEASONING CHAMBER — TIMBER STACKS

SEASONING CHAMBER — CONTROL PANEL

1 **In-House CNC Machining**
Multi-axis CNC cutting for precise, repeatable panel dimensions across every batch.

2 **Two Manufacturing Plants**
Dedicated Chennai facilities for cutting, assembly, and finishing at scale.

3 **Child-Safe Finishing**
Non-toxic paint application with a dedicated finishing & curing unit for kids' grade products.

4 **Wood Seasoning Chamber**
Moisture-controlled timber seasoning to prevent warping and ensure long-term durability.

5 **In-Process Quality Checks**
Every joint and panel inspected at each production stage, not just before dispatch.

6 **Export-Ready Packing**
Flat-pack, damage-resistant packaging built for long-distance and international shipping.

OUR FACILITY

Every product starts with properly seasoned wood

Our seasoning chambers control temperature, humidity and airflow so timber is dried and stabilized, reducing warping, cracking and splitting. By integrating traditional craftsmanship with modern drying techniques, Neminath Wood ensures every product delivered is of superior quality, reliable, and long-lasting.

“Beyond Borders isn't just our tagline — it's how we've built the factory: engineered for consistency at export scale, not just single-piece craftsmanship.”
